

## Certificate for investment class A

On February 09, 2024 at a ceremony in the Ministry of innovation and growth three companies were awarded with certificates for investment class A by Milena Stoicheva – Minister of innovation and growth. Among the awarded was the investment project of “Svilosa ZIK” AD – Plant for microcrystalline cellulose production.

The investment amounts to 25 670 000BGN and it will open 40 new job positions. The project is connected to the company’s activity diversification and provide the construction of totally new Plant production.

“More than 20 years we have purposely invested in green energy and circle economy. With this project we will close the production cycle from raw material to end product” – said the owner - Mr. Krasimir Dachev. He underlined that the Company follows an ambitious investment strategy aiming to strengthen its leading positions on the Balkans and Europe in this field.
